Late Mr. Girish Dattatray Sodmise (15 March 1999 - 21 June 2026) was an entrepreneur, technology professional, and visionary business leader whose work spanned information technology, workforce solutions, overseas manpower, digital services, and educational technology.

Girish completed his schooling at **New Era High School, Panchgani**, and later pursued a **Bachelor of Technology** from **Vishwakarma Institute of Technology (VIT), Pune**. At the age of 22, he began his professional journey with **TIAA**, where his leadership capabilities quickly set him apart. Despite being **one of the youngest professionals** in his role, he successfully **led a team of nearly 60 employees**, a responsibility he carried with **immense pride and dedication.**

Driven by a desire to build solutions of his own, Girish **took a bold step at the age of 24** by **leaving his full-time corporate career to pursue entrepreneurship**. This vision led to the establishment of **Gsinfotechvis Pvt. Ltd. in 2021**, a company focused on delivering IT services, digital solutions, staffing, recruitment, consulting, and emerging technology services.
Under his leadership, Gsinfotechvis expanded beyond India and established its international presence through **Gsinfotechvis Global LLC, USA,** enabling the organization to serve clients across global markets and strengthen international IT recruitment capabilities.

Alongside building Gsinfotechvis, Girish played a pivotal role in managing and strengthening the businesses operating under the **Girish Group ecosystem**. He contributed significantly to the growth of **GILS Pvt. Ltd.**, helping expand its workforce solutions from domestic manpower services into overseas manpower deployment and international recruitment. Further strengthening the organization's global presence, he also established **GILS Global LLC, Dubai**, creating new opportunities for international workforce solutions and cross-border business expansion.

Passionate about the transformative power of education and technology, he founded **Talentic360.AI, an AI-powered educational and workforce development platform** created to support students and institutions through **technology-driven learning and career development solutions**. From conceptualization and product planning to platform development and execution, he remained deeply involved in bringing the vision to life.

Despite achieving professional success at a young age, Girish believed that true growth carried a responsibility to give back to society. Inspired by this belief, he envisioned **Give Smile NGO**, an initiative dedicated to creating meaningful social impact through education, community development, skill enhancement, healthcare support, and opportunities for those in need. The organization reflects his conviction that success becomes meaningful when it is shared with others.

Those who knew Girish remember him not only as an entrepreneur and leader, but also as a devoted son, caring brother, loving husband, mentor, and a dedicated friend. His vision lives on through the **organizations he built, the lives he touched, and the countless dreams he encouraged others to pursue.**

"**Investment of time, 100% effort, dedication and consistency**", he would always say.

1999

A Star is Born

On **15 March 1999 in Phaltan, Maharashtra**, Girish was born into a family rooted in entrepreneurship, hard work, and strong values. These early influences would later shape the leader, innovator, and visionary he became.

2007 - 2017

The Foundation Years

At **New Era High School, Panchgani**, Girish spent a decade shaping the values that would define him for life - discipline, consistency, leadership, and an unwavering determination to learn. These years laid the foundation for a future entrepreneur who was never afraid to think differently.

2017 - 2021

Engineering the Future

Pursuing his **Bachelor of Technology from Vishwakarma Institute of Technology Pune**, Girish immersed himself in technology, problem-solving, and innovation. While many students focused solely on academics, he was already envisioning how technology could be used to solve real-world challenges and create opportunities for others.

2021 - 2023

The Young Leader

Breaking barriers from the very beginning, Girish became the **first and only student from his college placement batch to secure an opportunity with TIAA**. Within a remarkably short span, he rose to become one of the youngest team leaders, managing a team of over **60 experienced professionals**. It was an achievement he carried with immense pride and a testament to the trust his leadership inspired at such a young age.

2023

The Leap of Faith

At just **24 years old**, Girish made a decision that many only dream of making - **he walked away from the security of a successful corporate career** to build something of his own. Guided by a vision to provide innovative and dependable technology solutions, he founded **Gsinfotechvis Pvt. Ltd.**, marking the beginning of an entrepreneurial journey that would soon extend far beyond IT services.

2024

Thinking Bigger Than Technology

What began as an IT venture quickly evolved into something much larger. Girish expanded Gsinfotechvis into a broader business ecosystem, introducing new service verticals and transforming the company into an IT-enabled enterprise. His vision extended beyond borders as he represented the organization at the prestigious **Coaltrans Asia Conference 2024 in Indonesia**, forging international relationships and exploring opportunities on a global stage.

2025

Building Beyond Boundaries

With an eye on global expansion, Girish established **Gsinfotechvis Global LLC in Wyoming, USA**, extending the company's reach into international markets and launching specialized **US IT Recruitment Services**.

The same year, Girish founded **Talentic360.AI LLP**. More than just an EdTech platform, it was a mission to bridge the gap between education, employability, and opportunity. Designed to support students, institutions, and professionals, the platform brought together higher education partnerships, apprenticeships, certifications, skill enhancement, vocational learning, corporate training, government initiatives, volunteering opportunities, and remote learning pathways under one ecosystem.

2026

Creating Global Pathways

Never one to settle for limitations, Girish expanded the legacy of **GILS Pvt. Ltd.** beyond domestic workforce solutions and into **Overseas Manpower Deployment**. Under his leadership,

operations expanded across the **Middle East, Germany, Russia, and Europe**, opening new opportunities for skilled professionals seeking careers abroad.

To strengthen this vision, he established **GILS Global LLC in Dubai**, creating an international gateway for overseas workforce solutions. Personally visiting **Dubai** to build partnerships and drive expansion, he continued pursuing a future where talent could connect with opportunities across borders.

2026

A Vision Beyond Business

By the age of 27, Girish was not only building companies but also envisioning ways to give back to society. Believing that success carries a responsibility toward the community, he conceptualized **Give Smile NGO** - an initiative dedicated to creating opportunities through education, skill development, community welfare, and social impact. It was a reflection of the values that had guided him throughout his journey: growth, service, and the belief that every success story should create opportunities for others.
